

# Internship Application Instructions

## **All Applicants**

Complete the attached application form and attach your resume and a writing sample.

Your writing sample should be 400-word essay outlining your views on any federal program. The program you address may be as broad as national defense or as specific as the Peace Corps. You may use a paper you have recently written for class. Your essay is not a research project. While you may want to familiarize yourself with some general facts about your subject, you are not expected to write a highly detailed essay. Your specific opinion will have nothing to do with whether an internship is offered.
